

BLOOD BANK REFRIGERATOR

High precision digital temperature control system precisely controls the temperature inside the cabinet and provides reliable performance,

Integral foamed door with view window provides good view and insulation performance. The stored articles can be seen without opening door to reduce loss of cooled air

Quality carbon steel casing coated with imported paint by advanced coating technology provides surface color and luster match well, collision resistance and corrosion resistance.

Interior cabinet is made of quality stainless steel provides luxury and elegant, easy cleaning.

Door with special lock provides safety and reliability.

Shelves made of quality steel wire shaped by point solder and soaked with lacquer at high temperature provide high strength and easy cleaning or drawers made of stainless steel (optional).

An interior door is mounted behind the external door, to reduce loss of cold air.

HFC refrigerant, environment friendly and safety.

Imported famous brand compressor, high efficiency, silence and energy saving.

Digital display, object and accurate.

Continuous recording mode of temperature provides detailed history.

Specifications:

Model	B-100	B-200	B-300	B-660
Type	Upright	Upright	Upright	Upright
Capacity	100 L	200 L	300 L	660L
Climate class	N	N	N	N
Protective class	I/B	I/B	I/B	I/B
Temperature	2°C to 6°C adjustable			
Temperature control precision	±1	±1	±1	±1
Mode of alarm	Audible/Visual alarm	Audible/Visual alarm	Audible/Visual alarm	Audible/Visual alarm
Power supply	220V/50Hz	220V/50Hz	220V/50Hz	220V/50Hz
Defrost mode	Automatic	Automatic	Automatic	Automatic
Rated input power	200W	300W	300W	550W
Power consumption	1.80 kwh/24h	2.80 kwh/24h	3.20 kwh/24h	4.00 kwh/24h
Refrigerant	R134a	R134a	R134a	R134a
Net weight	55 Kg	95 Kg	130 Kg	175 Kg
Gross weight	63 Kg	110 Kg	152 Kg	215 Kg
External dimension (mm)	540x615x1085	540x615x1725	610x680x1885	1100x650x2050
Packing dimension (mm)	600x680x1100	600x680x1740	666x750x1900	1150x720x2150
